DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3 and 6-16, drawn to a modified polyvinyl alcohol and a crosslinkable auxiliary comprising the same.

Group II, claim(s) 4, 5 and 17-19, drawn to a method of producing a modified polyvinyl alcohol.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 3, at least, is anticipated by or obvious over JP-51125155, JP-36022145, JP-03200805 or JP-51125154. Consequently, the special technical feature which links the claims, a modified polyvinyl alcohol, does not provide a contribution to the prior art, and unity of invention is lacking.

3. During a telephone conversation with Sangya Jain on 6/19/08 a provisional election was made with traverse to prosecute the invention of Group I, claims 1-3 and 6-16. Affirmation of this election must be made by applicant in replying to this Office

action. Claims 4, 5 and 17-19 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 3 and 13-16 are rejected under 35 U.S.C. 102(b) as being anticipated by JP-51125155, JP-36022145, JP-03200805 or JP-51125154.

In their abstracts, each of JP-51125155, JP-36022145, JP-03200805 or JP-51125154 teach various low molecular weight modified/protected polyvinyl alcohol resins with protecting groups such as a formyl group, an acetyl group, a cynamoyl group, a formal group, an acetal group or a butyral group.

Thus, the requirements for rejection are met.

Allowable Subject Matter

7. Claims 1, 2 and 6-12 are allowed.

None of the prior was found to teach or sufficiently suggest the present fine pattern formation auxiliary comprising the modified PVA in combination with water and the water-soluble crosslinking agent, particularly comprising the molecular weight properties recited in the present of claim 1.
